Appropriate engineering controls

During use, dust may be formed.

A fine dust concentration of 4 mg/m³ applies as the general limit.

Individual protection measures, such as personal protective equipment

a) Eye/face protection During mechanical treatment (smoothing, sawing, drilling, milling) safety

glasses should always be used.

Use safety goggles when working overhead. (EN 166)

b) Skin protection

Hand protection After each cleaning use treatment creams, for very dry skin greasy

ointments.

Body Protection We recommend the following:

Long sleeved clothing

c) Respiratory protection Avoid inhalation of particles.

We recommend a P1 dust mask during work which produces large

quantities of dust, e.g. cutting and grinding. Respiratory protection complying with EN 143.

General precautions and other

information

Avoid contact with the skin and the eyes.

Environmental exposure controls

General advice No special environmental precautions required.
